## Privacy Statement

**Brunner Enterprises™ Inc.** requires limited information for the sole purpose of conducting business. We will not transfer any data to any third party.

## Policies

Minimum quantity is one stock length.

We offer custom straight cuts to length of material that is available in 12 ft. lengths, and provide 3" samples of our aluminum extrusions upon request. Non-stock lengths are not returnable.

In order to keep prices low, our material is stocked in 12 ft. or 24 ft. lengths. We also offer most of our material in shorter lengths for shipping purposes. We will accept returns of all re-salable merchandise for 30 days. Quantities over 120 ft. will be subject to a 25% re-stocking fee.

All quotations are valid for 30 days.

We take every effort to provide a superior product through our quality control department and use well-known carriers for shipping. Mishaps do occur. Inspect package(s) carefully upon delivery for container damage. All freight damages must be notated on the driver's copy of the bill of lading and all claims must be reported to the carrier and us within 5-business days. For product concerns we must be notified within 5-business days.
